

Dan Trommater Introduction

Trommater rhymes with 'barometer'

Our special guest today is not your ordinary miracle worker. Dan Trommater has spent over 20 years as a speaker, facilitator and professional magician. He applies his skills and insights to helping teams boost their performance by challenging their assumptions and shifting their perspectives.

Dan is a repeat performer at the Magic Castle in Hollywood, California - the most prestigious magic venue in the world. In fact, he and his wife were actually married at the private club in 2005.

Since then, Dan's work has transformed and he now presents keynote addresses and workshops on communication, teamwork and leadership for organizations across North America. In addition to his work with teams, Dan is a two-time TEDx speaker.

In his spare time, Dan thrives on working with his hands, creating gifts for his friends and family. He's an avid woodworker and axe restorer.

Today, he'll change the way you see your world.

Please help me welcome... Dan Trommater
